

Hemo Vet

Accurate hemoglobin and
hematocrit results from
one sample

- Robust and easy to use
- Evaluated for various species
- Reliable in a wide temperature range
- Adjustable display for different light conditions
- For veterinary medicine

Hemoglobin and hematocrit measurement for veterinary medicine

<p>Easy to use</p>	<ul style="list-style-type: none"> • User friendly features minimises training time • Step by step instructions on screen • Adjustable backlit touch screen - readable in intense sunlight or bright artificial light • User selectable language menu • Soft-load cuvette holder eliminates risk of contamination
<p>Practical and portable</p>	<ul style="list-style-type: none"> • Hemoglobin and hematocrit results from one sample available in 25-60 seconds (depending on the concentration) • Venous, arterial or capillary blood • Sample volume only 8µl depending on cuvette type • Microcuvette minimises air bubbles • Compact and light (700g) • No maintenance required. Auto self-test • Integrated rechargeable battery (100 hours)
<p>Accurate and reliable</p>	<ul style="list-style-type: none"> • Operating ambient temperature 15°C - 40°C • Photometric, azide methemoglobin method • Measuring range: 0 - 25.6g/dL; 0 - 15.9mmol/L • Imprecision: CV<2% • Linearity: 0-20g/dl ± 0.3g/dl; >20g/dl ± 0.7g.dl • Calibrated to NCCLS reference method • Stores up to 4,000 results • Control cuvette included

Collect blood sample.

Put microcuvette into analyser.

Result appears in 25 - 60 seconds.
